

The National Assembly Library of Thailand

- The National Assembly Library of Thailand is under the Bureau of Academic Services.
- Our library provides many information resources to support the legislative works in all subjects.
- We provide services to all groups of users : parliamentarians and their staff, committee, officers and the general public.
- We provide many databases to support the parliamentary works.
- This year we prepare to use the new library automation system (KOHA).

His Majesty King Bhumibol Adulyadej

- The biggest issue of Thailand : “The loss of His Majesty King Bhumibol Adulyadej”. He’s the great king that reigned for 70 years. He worked hard every day and never stop his works until he passed away. So, he had 4,685 projects to developed our country and disseminate these knowledge to some countries that request.
- He’s expert in many subjects such as Agriculture, Engineering, Astronomy, Environmental Science, Law, Education, Economics, Philosophy, Arts, Sports, Languages, Literature and Political Science. Especially, His Majesty had important role to support democracy and parliament.

King Bhumibol Adulyadej Data

- There are many kinds of data about him like biography, works, the royal projects, the royal speeches, instructions, songs, paintings, photos, boats and innovation invented by His Majesty including information about the Royal Cremation Ceremony and the feeling of people toward the king. For our library we focus on document about king and Parliamentary works.
- The Library has to prepare related data in all type of materials to serve our users because these are the most precious data of Thailand.

Blue day: The composition of the King
